SUMMARY

Informatics student at Universitas Multimedia Nusantara with experience as a Project Manager, Web Developer, and AI/ML enthusiast. Skilled in building full-stack web applications (React, Node.js, Tailwind CSS) and implementing machine learning models for real-world use cases such as waste management, agricultural verification, and chatbot automation. Strong track record in leadership and sponsorship management through various campus organizations, along with experience teaching coding to children and teenagers. National 1st Place winner in Web Development and recipient of the KAMI UMN scholarship.

WORK EXPERIENCE

Dec 2025 - Present

Project Manager - bisasinema.id

- Built the official website for an educational film & content-production platform offering workshops, e-courses, and a creative community.
- Contributed to securing a website development tender, managed the end-to-end project execution and front-end (React + Tailwind CSS) implementation.

Mei 2026 - Present

Freelance Private Tutor - KodioKids and CodingStudio

- Teaching private coding lessons to children aged 6–17 years old.
- Subjects: Roblox Development, Python Development, and Scratch.

July 2026 - Present

Coding Club Instructor - SMP Islam Al Azhar 41 Summarecon Serpong

- Teaching extracurricular coding lessons to junior high school student.
- Subjects: Web Development and Python for AI.

Dec 2025 - Present

Content & Web Design Intern - KAMI UMN

- Social Media Planning: Formulated monthly social media content plans and strategy to boost alumni engagement and awareness.
- Bulletin & Graphics: Utilized Canva to design visually engaging layouts for periodic alumni bulletins and publication materials.
- Web Design: Created high-fidelity wireframes and responsive user interface (UI) mockups using Figma to optimize the KAMI UMN website.

PROJECTS

bisasinema.id
TechStack: React, Tailwind CSS, Nest.js, Midtrans.

Collaborated with a development team to build the official website for Bisasinema, an educational film and content-production platform offering workshops, e-courses, and a creative community. Successfully generating Rp20M+ in early launch ticket sales and securing top organic search visibility without ads.

CIMB Niaga - Digital Account Opening Mobile Apps
TechStack: React native, Expo Go.

Developed a functional mobile application for CIMB Niaga's Digital Account Opening in a team-based academic project. Involved in UX-focused design, emphasizing accessible color usage for elderly users without compromising brand consistency, and took part in industry-level presentations.

PulangKeMerek
TechStack: React, Tailwind CSS, Redis, YOLOv8, Computer Vision.

Developed PulangKeMerek, an AI-powered waste management infrastructure that connects processing facilities to corporate dashboards, utilizing Edge AI for automated physical package verification and delivering closed-loop data for ESG & Environmental Audits.

JejakHijau
TechStack: React, Tailwind CSS, Node.js, Postgre-Sql, Supabase, Crypto.js , Turf.js, Maplibre-GL.

Developed JejakHijau, a two-sided platform that transforms field documentation into economic access for farmers. Built a fully offline verification system to check farm plots against the JRC Global Forest Cover 2020 deforestation map, successfully generating a secure, farmer-owned digital passport.

Kuali
TechStack: React, Tailwind CSS, Node.js, Postgre-Sql, Supabase, LLM Claude.

Developed Kuali, an AI assistant that converts messy WhatsApp order chats into structured orders, payment reminders, ingredient/production planning, and daily recaps. Designed the LLM parsing pipeline (chat → structured JSON) and the overall product architecture.

Mekar Lestari Food Processing and Dewata Farm Fisheries Mobile Apps

Served as the article writer and research assistant for a government-funded community service paper, documenting the digital readiness, functional needs, and empowerment strategies for local business partners.

Lembar Janji
TechStack: Next.js (App Router), TypeScript, Tailwind CSS, Vision LLM API (OpenRouter), PostgreSQL, Vitest, Vercel

Built a web app that turns job-offer images aimed at prospective migrant workers into a shareable checklist of what the offer states and what it leaves unanswered under Indonesia's Migrant Worker Protection Law, using an LLM only for image extraction and deterministic, tested rules for all assessment logic.

EDUCATION

2024 - Present

Bachelor of Informatics
Universitas Multimedia Nusantara
- Current GPA: 3.50

2020 - 2022

Science Major
SMAN 2 Kota Serang

SKILLS & CERTIFICATIONS

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (JS), TypeScript (TS)
Frameworks & Libraries: React, React Native, Node.js, Express.js,Tailwind CSS
Machine Learning: LSTM, Random Forest, XGBoost, Classification, Predictive Modeling

TOOLS & PLATFORMS

Figma, Canva, Github

SOFT SKILLS

Leadership, Team Collaboration, Public Speaking, Negotiation, Event Management, Content Writing

Certifications

Cloud Fundamentals & Generative AI on AWS (Basic) – Dicoding Academy, Feb 2026
Data Visualization (Fundamentals) – Dicoding Academy, Oct 2025
AI Training – Generation Girl's Academy, Aug 2025
AI – Dicoding Academy, May 2025

LEADERSHIP & ORGANIZATION

Jan 2026 - Present
Sponsorship Division Coordinator

Mister & Miss UMN 2026
- Leading sponsorship outreach and negotiations.
- Developing partnership proposals and managing sponsor relationships and agreements.

Mar 2025 – Present
Member

AI Community Universitas Multimedia Nusantara
- Workshop Speaker – AI Lab: Explained CNN & Computer Vision for clothing detection demo to 50+ high school students.

Dec 2025
Liaison Officer

Lomba Peneliti Belia Nasional 2025
- Managed multiple student delegations by coordinating schedules and handling logistics to ensure a smooth competition experience for all participants.

Sept 2025
Liaison Officer

Garuda Hacks 6.0
- Bridged communication between participants, mentors, and the organizing team throughout the event.

Dec 2024 – Sept 2025
Sponsorship Division Coordinator

Fikom Night
- Secured over IDR 20,000,000++ in cash, discounts, products, and services from sponsors.
- Managed sponsorship agreements and developed professional public speaking and negotiation skills.

ACHIEVEMENTS

Nov 2025 - Present

KAMI UMN Scholarship Awardee
- Selected based on academic performance, organizational involvement, and campus contributions.
- Participated in alumni networking and leadership development programs with UMN alumni.

August 2026

4th Place – IFEST Universitas Padjajaran Hackathon Competition (National Level)
- Presented "Lembar Janji" project.

June 2026

1st Place – I/O Festival Web Development Competition (National Level)
- Presented "PulangKeMerek" project.

Dec 2025

2nd Place – Pitching Day UMN x CIMB Niaga
- Presented "CIMB Niaga - Digital Account Opening Mobile Apps" project.
